VC Collaborations

Monster Match

www.edlink12.net→Videoconferencing→Student Projects

Two classrooms will be paired up and each class will create a monster. The class will then write a description of their monster and email that to their partner class. Each class will recreate the other class' monster by following the emailed directions. Classes will meet via videoconference to compare the original monsters with the recreated monsters.

Holidays Around the World

www.edlink12.net→Videoconferencing→Student Projects

Classes will prepare a 5-10 minute presentation to share the culture and customs of a winter holiday in the country of their choice via videoconference. Students may use drawings, artwork, music, songs, dances, skits, or food demonstrations in their presentations.

Bluebonnet Conference

www.edlink12.net→Videoconferencing→Student Projects

Twenty classrooms from ESC Region 12 will partner with student teachers from Baylor University in Bluebonnet Conference 2006. The purpose of this videoconference/Internet project is to increase reading understanding, learn presentation skills, build teamwork with classmates, and increase self-confidence by working with teachers and college mentors.

ASK: Author, Specialist, Knowledge

<http://www.remc11.k12.mi.us/dl/ASK.htm>

ASK, Authors Specialist and Knowledge, provides students with the opportunity to interview an author or a subject specialist in the topic they are reading about in a novel.

MysteryQuests

Prior to the video conference each classroom will create a presentation with clues about their mystery. The other classrooms, using reference materials, will try to discover the answer to the mystery presented by each of the participating classrooms.

Read Around the Planet: A celebration of NEA's Read Across

America *Sponsored by Polycom*

<http://www.twice.cc/read/>

Classrooms use interactive video to connect with other classrooms "around the planet" and read to each other. The activity is sponsored by TWICE and Polycom, in cooperation with NEA.
