

Be SMART from the Start

Safety first

Protect your personal information. Don't give it to people or companies you don't know.

Meet and Mingle

Meeting in person can be dangerous when you only know them from online. Not everyone is who they seem. Always tell someone you trust.

Assess not Accept

Opening e-mails, files, texts and pictures from unknown senders can cause harm. Think before you click.

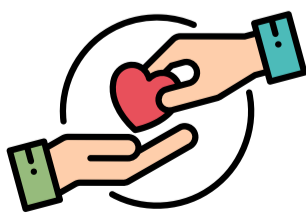

Reliable Sources

Check your source. Not everything on the internet should be accepted as fact or truth.

Tell Someone

Talk to someone you trust if something or someone makes you feel worried or uncomfortable.

Put an end to cyberbullying.

Be Kind Online
